Otherwise there can b so hope of exemption from incessant anti-slavery agita non, and the country would soon be thrown again int the midst of political and financial convulsions. -1 cannot suppose that Kentucky would consider her whits, interests and honor safe under any settlement as thorough than this proposed by Mr. Crittenden.— Any attempt to emasculate it by excluding from its scope after acquiring territory, or by failing to recogmage as clear and explicit as that employed to prohibit north of the line, or by veiling its provisions in ambiguous phrases, could only result in new agitations and convulsions. I believe that Kentucky wants a thorough ettlement or none, and one that any plain man and hon-

I have said that, in my opinion, no thorough and atisfactory amendments will be proposed to the States by Congress; and I have taken the plan which coneds most to the northern States, and which presents the least that I suppose any portion of the South would accept. And now, sir, I tell you that the republicans in Congress, and I fear in the country, will never adopt firetly, property in slaves. They will outlaw from the notection of the common government property to the value of four thousand millions of dollars, and which is aterwoven with the very structure of society in nearly all the States of the Union. They intend that the South shall never have any portion in the territory of the Union. Their fixed policy is to wield the federal government for anti-slavery purposes, and to crush all opposition by arms. I am not mistaken as to the purposes of the resolute and controlling spirits of that or-

ganization at this capital. "At an early day in the session, a number of gentlemen, fearing that no suitable guarantees could be propesed by Congress, began to look to the States and the people. The republicans having control of the northern dates, our friends there were, of course, unable to move. An earnest effort was made here to secure a convention of all the southern States. The plan could not command the requisite support, and was lost in the rapid progress events. Next, a more hopeful movement was set on out, looking to an immediate conference of the border saveholding States, (embracing Tennessee and North Carolina,) with the view to unite their counsels and arert the danger of civil war ; but here, also, the obstades proved insurmountable, and the time for such action has passed. Each of these States, therefore, must deede for itself the attitude it will occupy in this emer-

Prof. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my

in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfac-tion that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative. and as a result, have a rich coat of very soft black hair. which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended

its use to many of my friends and acquaintances, who, I am
